

5MWh Modular Energy Storage Cabinet for Photovoltaic Storage and Charging

Overview

This next-generation liquid-cooled energy storage system from Jinko ESS integrates 314 Ah LFP cells, delivering high safety, efficiency, and reliability. Designed for modern grid applications, it combines strong performance and long service life within a compact 20-foot container. 3□ Extendable-modular, adding more capacities as needed, Nx5MWh. 4□ Safest LiFePO₄ technology, sustained power supply. 5□ Long lifespan, up to 6000 cycles. 6□ Armed with DC GROUP. Using new 314Ah LFP cells we are able to offer a high capacity energy storage system with 5016kWh of battery storage in standard 20ft container. The Jinko ESS 5. A 5MWh BESS is a multi-MWh energy storage block widely used in large C&I (commercial and industrial) projects and grid-scale applications for peak management, renewable integration, and grid services. Depending on the design, we can provide remarkable energy density ideal for utility. Las Vegas, September 9-11, 2025 — At RE+ 2025, one of North America's premier solar energy events, EVE Energy made a notable impact as an innovation leader in large-cell technology. The company globally launched its groundbreaking “Zero Degradation in 5 Years” 5MWh long-cycle energy storage system.
