

600W solar energy in Austria

Overview

Solar energy in Austria benefits from the EAG (Erneuerbaren-Ausbau-Gesetz) framework offering feed-in tariffs and investment grants. Residential systems receive €200–€500/kWh battery grants. Austria targets 100% renewable electricity by 2030. 67 ct/kWh for 13 years), federal subsidy (€250/kWp, max €5,000) and state subsidy (Styria: up to €2,000), the net cost falls to €4,000–6,000. 82 TWh of generation to the Austrian grid, accounting for 11. For 2026 it runs in several funding calls: The 2026 rates are set in the EAG investment subsidy. Solar Power Austria is one of CEE's most mature markets. Here are 7 proven wins for 2026 buyers. TL;DR: Solar power Austria pays back faster than most CEE markets thanks to the OeMAG feed-in tariff and the 0%. TL;DR: solar incentives Austria in 2026 includes 7 grant routes — federal Bundesfoerderung, state-level top-ups, VAT exemption on residential PV under 35kWp, plus feed-in compensation.
