

Amsterdam rooftop solar panels

Overview

Amsterdam has now installed more than 1 million solar panels, with the Dutch capital currently boasting 250 MW of rooftop PV capacity across 120,000 households. The municipal government aims to equip around 500,000 home with PV systems by 2040. Tommy's Service is your trusted partner for the installation and maintenance of solar panels, offering modern photovoltaic solutions for residents and businesses in Amsterdam and throughout the Noord Holland region. Our services enable the effective utilization of renewable energy, resulting in. New findings reveal how Amsterdam can accelerate its transition towards so-called Positive Energy Districts, where clean, useful energy such as solar electricity and heat are generated and consumed locally. We help homeowners and homeowners' associations (VvE's) combine a roof terrace space with solar panels, without compromising comfort or safety. Amsterdam roofs require experience and a tailored approach.
