

Camping Site Solar-Powered Container Mobile Type

Overview

The Mobile Solar PV Container is a portable, containerized solar power system designed for easy transportation and deployment. Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no shading from a remaining container structure. It integrates advanced photovoltaic modules, inverters, and electrical cabinets into a compact and functional unit. Set up in under 3 hours for off-grid areas, construction sites & emergency power. Cabinet-based BESS from 50KWh to 500KWh Container-based BESS from 1MWh to 5MWh What is the typical ROI for a Solarfold™ container?

The typical ROI for a Solarfold™. Designed to minimize the impact on the environment and available from 5,5 kW (one 12 panels unit) to several MW, our revolutionary high quality and high wind-resistant solution allows Sunstream to transport and install in a record time and without any civil works a solar power plant in kit. Solarfold allows you to generate electricity where it's needed, and where it pays to do so.
