

Do I need to report the installation of photovoltaic panels

Overview

While documentation is not required to be filed with your tax return, it may be required if your tax return is audited. Before installing a solar hot-water or a solar electric-generating system, also known as photovoltaics, you must hire a Professional Engineer or Registered Architect to be sure your building's structural system can maintain the weight of the equipment. Permits are required for the installation of. Installing solar in NYC requires careful documentation and approvals. The Department of Buildings provides clear guidance to help owners navigate the steps and move forward with solar installations: Permits: You'll need to submit architectural and electrical plans, stamped by a NYS Registered. Automated permitting is revolutionizing the industry: SolarAPP+ now provides instant permit approval in 275 jurisdictions across 13 states, reducing processing time from weeks to minutes for standard residential installations. By confirming we complete the form correctly, we can maximize our benefits.
