

Energy Storage Battery Cabinet for Network Server Rooms IP55

Overview

Constructed from high-strength steel or stainless steel, it offers excellent waterproof, dustproof, and corrosion-resistant performance with IP55 protection. AZE's lithium battery energy storage system (BESS) is a complete system design with features like high energy density, battery management, multi-level safety protection, an outdoor cabinet with a modular design. Featuring an IP55 waterproof and dustproof enclosure, integrated LiFePO4 battery modules, and smart BMS, this system provides reliable backup power. In the realm of electrical equipment and supplies, ip55 battery storage cabinet play a crucial role in protecting sensitive electronics and instruments. These enclosures are designed to house and safeguard electronic components from environmental factors such as dust, moisture, and physical damage. This outdoor 19-inch battery cabinet is engineered for telecom base stations, solar energy storage systems, and various outdoor power applications. Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application requirement.
