

Energy storage solar energy storage cabinet lithium battery company in gothenburg sweden

Overview

Founded in 2019 as a Chalmers University spin-off, Rivus Batteries in Gothenburg develops sustainable organic flow batteries for large-scale energy storage. Their metal-free, water-based technology enhances renewable energy reliability and minimizes environmental impact. From a single module to a complete battery energy storage system – the goal is to find the option that will ultimately lead to success. With projects all around Europe, we know exactly what. We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry solutions, photovoltaic inverters, energy storage systems, and storage batteries. With over 350 registered companies operating across the full supply chain—from raw material extraction to recycling—Sweden positions itself as a critical hub for. Northvolt AB is dedicated to producing sustainable lithium-ion batteries that significantly reduce carbon emissions, aiming to support electrification and renewable energy storage. "This project proves cities can achieve.
