

How much is the tariff-free solar panel in Ghana

Overview

A 5kW solar system in Ghana typically costs between GHS 20,000 and GHS 30,000 installed, depending on components, location, and whether batteries are included. On-grid systems without batteries are on the lower end, while hybrid or off-grid versions with storage cost more. What is 500W Solar Panel price in Ghana?

Going by the current calculations we use, that is. If you are looking for a quick estimate, a high-quality solar installation in Ghana currently ranges from GH¢18,000 for a basic backup system to over GH¢95,000 for a full-scale luxury home solution. What Drives the Cost in 2026?

Several factors influence why one quote might be higher than another. Ideal for a two-bedroom house or small office. While upfront costs vary based on system size and quality, most homeowners see returns within 3–5 years through reduced energy bills and potential income from net metering.
