

Is it okay to install photovoltaic panels on the roof of a supermarket

Overview

PV panels installed over a combustible roof system is discouraged as it will almost certainly increase the severity of a loss. The rooftop placement of PV panels means any fire igniting due to the PV panels or cabling is beyond the building's fixed fire protection and detection systems. According to the International Energy Association (IEA), PV solar generation increased by a record 22% in 2021 and “is becoming. Solar panels installed on commercial rooftops offer numerous benefits, including: Cost savings and tax incentives— Solar panels can reduce monthly electricity expenses while costing relatively little to maintain. Additionally, businesses that install solar panels often qualify for tax breaks. As a result of technological. For the project carried out in Compiègne, in the Oise region, in 2020, Terre Solaire installed our Roof-Solar Bitumen on the 1,560 m² roof of the Intermarché supermarket, with a capacity of 300 kWp.
