

Latest news on energy storage and new energy

Overview

DeepMind's AI optimizes energy storage in labs, cutting cooling energy 40%. NREL and Berkeley pilots dispatch batteries with renewables for net-zero operations. RWE Renewables Australia has officially opened the 50MW/400MWh Limondale battery energy storage system (BESS) near Balranald in south-west New South Wales. What is driving and shaping European BESS project financing and M&A this year?

Minimising counterparty risk is a key component of the German. Norwegian state-owned utility Statkraft has approved the construction of a pumping facility that will transfer additional water into the Blasjo reservoir in south-western Norway, which is expected to increase annual hydropower generation by 54 GWh. Japanese consumer electronics giant Panasonic intends to convert its electric vehicle (EV) battery cell manufacturing facility in Kansas, US, to produce. AMD raises Q4 guidance to over \$4B on AI chip demand, driving hyperscalers to deploy BESS for 100MW+ power reliability and renewables integration.

Article Content

Energy storage

The growing demand for portable electronics calls for lithium-ion batteries with higher energy density and longer cycle life.

Renewable Energy News -

Renewable Energy Sources. Read the latest research on renewable sources of energy such as solar energy, wind power, nuclear energy, hydrogen fuel, ethanol, methane and other

Top and Latest Solar Energy News and Breaking Stories

We are here to bring you the latest solar news, progress and innovations, and everything else that you need to and want to know about the solar industry.

News Archives

The Czech Republic's fourth pumped hydro energy storage plant is to be built within an existing hydropower complex, converting convention run-of-river into reversible units, creating

Fluence | A Siemens and AES Company

Fluence is a global market leader in energy storage products and services, and cloud-based software for renewables and storage assets.

Energy Storage Market Outlook Q1 2026 – SEIA

The Energy Storage Market Outlook (ESMO) is a quarterly publication produced by the SEIA and Benchmark Mineral Intelligence.

Energy Storage News | Today's latest by Renewables Now

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy

Latest Energy Storage & Battery Technology Updates | ESS News

Get the latest updates on battery tech, grid-scale storage & green energy – with trusted news, trends & expert commentary

Tech News | Today's Latest Technology News | Reuters

Find latest technology news from every corner of the globe at Reuters , your online source for breaking international news coverage.

Reliable energy for our economy | Uniper

At Uniper, we are at the heart of Europe's energy future - helping to balance three of the continent's biggest priorities: security of supply, industrial

Ford launches Ford Energy to compete with Tesla Megapack

Ford has launched Ford Energy, a new battery storage business focused on utility-scale energy systems using U.S.-assembled LFP battery technology starting in 2027.

REPORT: Largest Q1 on Record for Energy Storage – SEIA

REPORT: U.S. Adds 10 GWh of New Energy Storage Capacity in First Quarter, Marking Largest Q1 on Record As War in Iran Drives Push for Energy Security, Energy Storage Forecast

Energy Storage News

AMD raises Q4 guidance to over \$4B on AI chip demand, driving hyperscalers to deploy BESS for 100MW+ power reliability and renewables

Energy News | Latest Energy Industry Information and Updates: ET ...

Find the latest energy news, views and updates from all top sources for the Indian Energy industry.

Solar Energy News | Today's latest by Renewables Now

Latest solar power news from Europe, Latin America, Sub-Saharan Africa, APAC, MENA and more. Stay updated on solar

Global Energy Storage Growth Upheld by New Markets

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, the sector

Energy Storage News | Today's Latest Stories | Reuters

Major international renewable energy investors are lining up for Brazil's first battery auction, announced by the government on Wednesday, boosting hopes that the storage units will obtain the...

Latest Renewable Energy News | Renewables Now

News, interviews and comments for the global renewable energy industry with a focus on green hydrogen, wind energy, solar power, energy storage and PPAs.

Solid-State Batteries 2026: Advances, Challenges

Solid-State Batteries 2026: Advances, Challenges & Future Use Cases Solid-state batteries (SSBs) are the hot topic of 2026 in energy storage.
