

Lithuania lithium battery pack OEM

Overview

Today, BATTEC is the only manufacturer of industrial lead-acid batteries in Lithuania and one of the first to produce lithium batteries and energy storage systems. BATTEC leverages extensive experience and ongoing research to produce cutting-edge lead-acid batteries. Their expertise in rapid custom battery pack design services ensures. ENEPAQ is a prominent manufacturer of lithium-ion battery modules and advanced Battery Management Systems (BMS), specifically designed for applications like the electric Formula Student competition. 6 VDescription (EN): Saft LSH14 lithium cell high current non-rechargeable primary Li-SOCl₂ batteryNon-rechargeable cell without leads custom leads can be added as specified please contact us for additional requirementsCharacteristics:Values compared with cells stored. Designing and manufacturing custom lithium-ion, LiFePO₄, and rechargeable battery packs for robotics, medical devices, energy storage, industrial automation, and OEM projects worldwide.
