

Nairobi purchases new energy solar site

Overview

In a significant move for East Africa's renewable energy sector, the Two Rivers complex in Nairobi is set to host the region's largest rooftop solar installation for a mixed-use development. Through a strategic partnership between Centum Real Estate (Centum Re) and Distributed Power Africa-Kenya. Inside the mall corridors of Sarit Centre, a new space invites visitors to handle solar panels, inspect inverters and walk through the mechanics of a rooftop system. The display belongs to SpenoMatic Group, which has opened what it calls an interactive solar learning centre in Nairobi. The room. Once fully operational, the 9 MWp industrial solar installation will generate about 14 gigawatt hours (GWh) of clean electricity each year. 5 million (Sh323 million) solar power deal. 5 million (Sh323 million) solar power contract at the Awasi steel facility of Abyssinia Group of Industries has increased the site's installed solar capacity to 9MW, further solidifying the position of Norway-based renewable energy investor Empower New Energy in Kenya. Approximately 14. Empower New Energy has signed a 2. Forty companies announced plans to invest roughly 27 billion euros (\$31.
