

New Energy Solar Bracket Processing Factory

Overview

UI Newenergy processing factory focusing on aluminum and steel structure for solar mounting systems. It's mainly engaged in production and processing, specializing in the processing of solar hardware and installation kits, photovoltaic accessories. In the near future, we will introduce some new production equipment to improve work efficiency and bring the quality of the brackets to a higher level. This is. The fabrication process of photovoltaic brackets follows a precision-engineered workflow on the production line, encompassing decoiling, flattening, precision punching, roll forming, and cut-to-length operations-all integrated to achieve consistent, high-quality output. is a comprehensive manufacturer of photovoltaic bracket and solar module frames, integrating technical consulting, design, manufacturing, processing, sales, installation, and maintenance. Our company is located in the state-level development zone, beside the. Jiangsu Hongdi New Energy Technology Co. is a high-tech, privately-owned technology company established in April 2023. With advanced equipment, our monthly production capacity reaches 800 MW, and.
