

Professional battery pack manufacturer

Overview

Global leaders like CATL, LG Energy Solution, and Panasonic dominate EV and large-scale energy storage, while specialized manufacturers like Ufine Battery focus on custom battery packs for robotics, medical devices, and compact electronics. Besides, with high discharge rates (45C/75C), the Standard Series battery packs deliver powerful bursts of energy, ideal for racing, recreation, education, and commercial use, they are highly valued for their performance and affordability. As a leading manufacturer, we specialize in custom lithium battery pack design for applications such as energy. At Emerging Power, we provide both custom and standard battery solutions for OEM applications. With more than 120+ years of collective experience in custom battery pack design and battery distribution, we have the knowledge and expertise to help you through your most complex design and. We are a full-service custom battery manufacturer with full design and engineering capabilities. Our team has extensive experience with lithium-ion, lithium polymer, nickel metal hydride, nickel cadmium, lithium primary, and alkaline battery packs and assemblies. On all projects, we work closely. Bonnen Battery provides all kinds of custom lithium ion battery pack solutions Electric Boat / Outboard Motors / Yacht / Tender / Sail boat High Speed Electric Car / Truck / Pick-up / Commercial Vehicle Low Speed Electric Cars / Electric Utility Vehicles / Emobility Bonnen Battery provides.
