

Scammer s Solar Power Shed

Overview

These scams start with an unexpected phone call, message on social, or even an in-person visit. Or they might try to sign you up for a “free” program to make your home more energy efficient with. Oneida homeowners are being approached by door-to-door salespeople claiming to be from National Grid. City officials are telling residents to call police if they encounter any of these individuals. A few years ago, a stranger showed up at my apartment and claimed to be from. Solar energy and other high efficiency home improvements can help reduce energy consumption and lower utility costs for homeowners. From pv magazine. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy. Solar energy is growing in popularity—it saves us money on our electricity bill, it's light on the environment, and governments even promote programs to help make it more affordable.
