

The latest bidding announcement for energy storage lithium batteries

Overview

The winners of the Capacity Investment Scheme (CIS) third tender were announced on 17th September 2025. This round secured over 4 GW / 15 GWh of battery energy storage across 16 projects - enough energy to supply 3.5 million households in the NEM for four hours. China's latest gigawatt-scale battery energy storage cell procurement has established new pricing benchmarks across multiple.

Furthermore, lithium-ion battery supply will be unable to keep up with demand in 2022 in part due to rising raw material prices, according to Wood Mackenzie consultant Jiayue Zheng. Bidding for lithium tenders is extremely lucrative for companies of all sizes. Tendering authorities and private companies release thousands of. Slovenia unveils battery storage rebate scheme Companies that connected battery energy storage systems to the grid in Slovenia between January and July this year will be able to apply for a non-repayable grant covering up to 45% of eligible investment costs, capped at €225 (\$259). On. Italy broke new ground in energy storage with its very first battery storage auction, competitively awarding the full 10 gigawatt hours (GWh) of capacity put up for tender.
