

The new energy battery cabinet has been produced for half a year

Overview

In May 2025, Sichuan Changhong Electric Power Co. launched a new generation of commercial energy storage cabinets designed to provide global commercial users with efficient, safe, and intelligent energy solutions. This initiative aims to inject new momentum into the energy transition and. The Chinese company said its new product is intended for commercial and industrial use. It uses 233 kWh LiFePO4 batteries. Dubbed Powerhill, the storage. Recently, the reporter learned from Huayang Shares' Hua Na Core Energy that another application scenario of sodium ion batteries - the first set of 50 kW/100 kWh sodium ion battery industrial and commercial energy storage cabinets has rolled off the production line, marking the group's development. Meeting the urgent need for solutions supporting high-density computing in increasingly crowded data center facilities, Vertiv introduced Vertiv EnergyCore battery cabinets.
