

UK solar power generation projects

Overview

In the 24 months to 2024-06-06, UK planning records show 1,704 grid-scale solar projects approved and 619 in planning, totalling roughly 33,934 MW and about 142,067 acres where site area is reported. Lincolnshire leads by a wide margin (5,639 MW). About 95% of decided solar. 800 MW Springwell Solar farm given approval – the largest solar project in the UK terms of power generation. Families and businesses will benefit from more solar power, one of the cheapest forms of power available, as the government today (Wednesday 8 April) approves a major new solar power. Bringing together policymakers, developers, investors, network operators, and industry enablers, the The Clean Power Summit 2026 delivers actionable strategies to achieve the UK's 2030 clean energy targets. With four dedicated content streams, attendees will gain exclusive insights into offshore. The National Energy System Operator (NESO) notes that renewables, including solar, generated over 50% of the UK's electricity in 2024, making it one of the greenest years on record. Each of our renewable energy projects starts with a partnership with landowners and local communities. These solar power plants include Queequeg Solar PV Park, Botley West Solar Farm, Sunnica Solar PV Park, and many more. But we know we need to go further to deliver our.

PV_Live - Sheffield Solar

At 2026-06-10 04:00:00 GMT Serving of GB demand Modelled using 567 live sites
Installed GB capacity: 23.30 GWp (excludes solar BMUs: 0.86 GWp) All time peak generation: 16.3 GW Also

Community energy investment to build community wealth and power

By generating renewable energy on our doorstep, we're creating community wealth that people see and feel every day - from solar panels running our buildings and EVs to surplus power

A look at the largest-scale solar projects across the UK

Find out more about how the UK is developing substantial solar power projects, including the Queequeg Renewables Solar PV Park and the Botley West Solar Farm.

Latest Power Generation News and Insights

Power generation industry updates, news, and insights including gas, renewables, coal, nuclear, energy storage, hydrogen, and more.

Executive summary - Renewables 2023 - Analysis

Electricity generation from wind and solar PV indicate potential generation including current curtailment rates. However, it does not project future curtailment of wind

AI for Visibility and Forecasting Renewable Generation

This makes it difficult to accurately forecast generation and demand. This project will use artificial intelligence to uncover and map hidden solar generation and improve forecasting accuracy.

Trinasolar

This project is one of the key agricultural photovoltaic power generation projects in Wanning City, making full use of the local barren slopes and abundant solar

Cero Generation

Cero Generation is quickly becoming one of Europe's leading renewable energy producers. We're focused on developing and delivering utility-scale solar and battery energy storage system (BESS)

UK Solar Farm Data: How Many, the Biggest & By County (2026)

1,704 UK grid-scale solar projects approved, 619 in planning, 33,934 MW. The biggest solar farms and full county data from the DESNZ Renewable Energy Planning Database (REPD).

Top 5 Upcoming Solar Power Plants in UK

Queequeg Renewables Solar PV Park, Botley West Solar Farm and One Earth Solar are among the top 5 upcoming solar power projects in UK.

Solar Farms UK Map: Locations, Biggest Sites & Projects

Solar Farms UK – Interactive Map
Why Solar Farms?
Features of The Interactive Map
How to Use The Map
The Bigger Picture
Comprehensive Coverage: The map showcases various types of renewable energy projects, with a special focus on solar farms.
Geographical Layout: You can easily see the distribution of projects across different regions of the UK, offering insights into regional focuses on renewable energy.
Project Details: Clicking on a solar farm on the map will reveal more information about that particular project, such as its capacity, operational status, and more.
Regular Updates: As new projects commence and existing ones progress, the map is updated to reflect these changes, ensuring you have the latest information at your fingertips.
