

Wide-temperature type outdoor energy storage cabinet for battery swapping stations

Overview

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are pre-assembled for quick deployment and can operate reliably under. Individually configurable outdoor cabinets that provide optimum protection for battery systems against weather conditions, vandalism, and break-ins. Custom-made cabinets and enclosures are essential for projects that have specific requirements in terms of size, material, protection type. Rittal outdoor enclosures provide optimum protection for your battery systems. Individually configurable outdoor solutions are available as standard products and can be supplied within 24 hours. That ensures the continued reliability of all your applications, for example Energy storage systems must. Project features 5 units of HyperStrong's liquid-cooling outdoor cabinets in a 500kW/1164. 8kWh energy storage power station. The "all-in-one" design integrates batteries, BMS, liquid cooling system, heat management system, fire protection system, and modular PCS into a safe, efficient, and flexible. SWA ENERGY outdoor cabinets are engineered for harsh environments and long-term outdoor operation. In. Supports side-mounted 30KW or 50KW or 100KW inverters, allowing customizable PV-storage integration for diverse application scenarios. Integrated cabinet-inverter structure reduces.
